

REMARKS

The instant divisional application is being filed to cover unclaimed subject matter from the parent applications. Claims 1 through 10 have been cancelled and new Claims 11 through 15 have been added. The newly added Claims 11 through 15 are fully supported in the subject specification. A new Abstract page is enclosed.

Also enclosed is a Declaration from Dr. Peter Dahmen supporting the patentability of the present claims over U.S. Patent No. 5,240,951, which shows the unexpected superiority of the present invention over that disclosed in U.S. Patent No. 5,240,951.

Review and consideration of the pending claims and allowance of the same is respectfully requested.

Respectfully submitted,

By
